

# Online results and Live Timing.

## Get your race track online!

Promote your circuit and your timekeeping services online at the [www.raceresults.nu](http://www.raceresults.nu) website. Provide the race organisers, race director, teams, drivers and the fans with all the online timing information during and after the races.

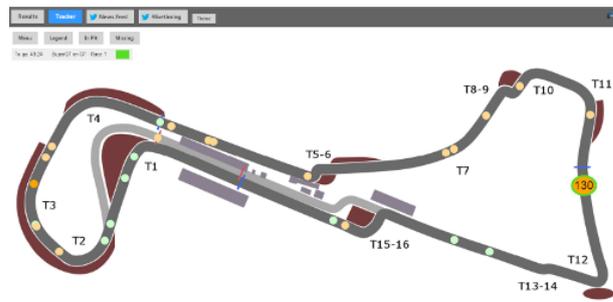

With the best professional **Live Timing application** everybody can perfectly follow what is happening on the track. The Live Timing shows extensive real-time timing information. And the **Race Tracker** are your eyes on the track by showing the positions of the car on the track! New in the Live Timing are the **Heat statistics** which shows very interesting information like the leader history and fastest lap times during the current session.

At the end of every session you can upload the **results** to the website where everybody can find and download all the timing information they need; results, lap times, sector analysis and many more. And anyone can also subscribe to the email service.

### Live Timing.

- Real-time Live Timing without delays.
- The Live Timing can show an extensive amount of timing information. Choose a lay-out in the Race Manager.
- Is an addition to the RSTime timing system.
- Timekeeper can choose from many lay-outs.
- The Live Timing runs online on every phone, tablet or laptop with an internet connection.

### Race Tracker.

- Are your eyes on the track. Follow the positions of the cars on the track.
- Great tool for Race Control and the Race Director to follow the cars during the sessions.
- See a list of 'missing' cars.
- Filter the visible cars on class or start number.
- Multiple track lay-outs can be available per circuit.

### Statistics.

- **General heat information**; started participants, running time, number of caution procedures and more
- **Leader history** shows a list of participants who led the session and how many laps they were leading.
- **The Best lap history** shows all the drivers that have set a best lap times during the session.

## Online Results.

The timekeeper can export his results as a PDF to the raceresults.nu website. Exporting results is a very easy process and will only take one click. You will provide a valued extra service to the race organiser, race director, the teams and the drivers. All result lay-outs that are available in the timing system can be exported to the website.

## Specifications - Online results and Live Timing

- The Online results and Live Timing are all an addition to the RSTime timing system.
- For the Race Tracker we will create a map for your circuit with detailed information. Multiple track lay-outs are possible per circuit.
- Unlimited use of the Live Timing and Tracker during events, track days and test days
- Live Timing and Tracker is very useful for race control in following the cars on the track.
- Export and upload an unlimited number of events and results to the raceresults.nu website.
- Insert the Live Timing and Tracker to your website using an IFrame.
- Both the results and Live Timing application can run online or on a local intranet.
